

Group Assignment 2

Use JavaScript, HTML and CSS to create a multiple choice quiz application

Use the Open Trivia DB as the source of questions
(https://opentdb.com/api_config.php)

Which theory is known as the Einstein theory?

- A. ☐ Evolution theory
- B. ☐ Big Bang theory
- C. ☐ Theory of Relativity
- D. ☐ Cell Theory

Next

Part 1 - requirements

- Should be able to select the number of questions and start a quiz
- Should be able to step (back and forth) through questions and select/change an answer
- Should be able to submit the quiz at the end and see the result (how many correct)
- Make it look nice (styling, layout)

Part 2 - requirements

- Add the functionality needed to be able to choose between different quiz categories before starting a quiz
- Add the functionality needed to select the difficulty of the quiz
- (Bonus) Add an additional time attack quiz mode - where you only get a set amount of time to answer each question without the possibility of going back to an earlier question
