Postman: Melding fra Postman

Eirik: Hei alle sammen

Eirik: Hei

Zara: Det er Zara med "z"

Cathy: hei

Group assignment

Create a chat application that

- shows a live list of available messages

- enables you to write messages that contains a text and a name

Mob programming

- One "driver"
- Multiple "navigators"
- Driver can only type based on directions
- Switch seats every 10 minutes
- Find some way of screen sharing / code share

API

Use the available API at
https://react-workshop-chat.herokuapp.com/chat
to develop chat application

Fetching messages

return the following format (JSON) and will contain the 50 last posted messages:

```
[
  {
    "_id": "5f7a4529100e4b1200586c3c",
    "createdAt": "2020-10-04T21:56:57.822Z",
    "name": "Nissen"
    "text": "Snart jul!",
  },
  ...
]
```

Posting messages

[POST] https://react-workshop-chat.herokuapp.com/chat

accepts the following format (JSON body) as input:

```
{
    "name": "Eirik",
    "text": "Hei alle sammen!"
}
```
